CAPABILITIES · END-TO-END

PHARMACEUTICAL SERVICES & CONTRACT MANUFACTURING

VGrups focuses on the entire lifecycle of drug production and supply — from active-ingredient sourcing to finished, market-ready products.

CMO

CONTRACT MANUFACTURING

We handle part or all of the manufacturing process for partner pharma companies — freeing your teams to focus on R&D and marketing while benefiting from cost savings, regulatory expertise and modern technology.

APIS

API MANUFACTURING

Synthesis and extraction of Active Pharmaceutical Ingredients — the core therapeutic actives — across small-molecule chemical synthesis and biotech processes for biologics.

R&D

FORMULATION DEVELOPMENT

Designing and optimising the final dosage form — tablets, injections, creams — engineered for stability, bioavailability, patient compliance and cost-effective production.

FDF

FINISHED DOSE MANUFACTURING

Converting APIs into market-ready dosage forms — tablets, capsules, injectables and more — under stringent Good Manufacturing Practice (GMP) standards for safety and efficacy.

EFFICIENT LOGISTICS & TIMELY DELIVERY

Orders processed within **24–48 hours**. Standard delivery in **3–7 business days**, Express in **1–3 days**, with **Same-Day** options across select major cities through a network of trusted courier partners.

COLD CHAIN & AMBIENT LOGISTICS

Specialised cold-chain handling for insulin, vaccines and biologics with **real-time temperature monitoring** and validated packaging. Ambient logistics maintain integrity across varied Indian climates.

ROBUST QUALITY & COMPLIANCE

Every product compliant with **CDSCO · WHO-GMP · ISO** guidelines. **Real-time GPS tracking** and chain-of-custody verified warehousing prevent loss and ensure patient safety end-to-end.

OUR PRODUCT PORTFOLIO · INTRODUCTION

BUILT FOR EVERY PRESCRIPTION

VGrups Healthcare offers an exceptionally broad pharmaceutical and personal-care range — engineered to meet real prescribing needs from primary care to specialty therapy. Every formulation is developed, tested and dispatched under GMP-compliant standards.

183+ FORMULATIONS ACROSS 7 DOSAGE FORMS

A vertically integrated product range — IP / BP / USP-compliant — spanning Tablets, Capsules, Liquids, Ointments, Gels, Creams and Cosmetic care.

QUALITY FIRST

Every batch released under stringent CDSCO, WHO-GMP & ISO controls — uncompromised safety, every time.

THERAPEUTIC BREADTH

From dermatology and gastroenterology to cardiology, diabetes care and oncology — one trusted partner.

INNOVATION IN FORMULATION

Bilayered, sustained-release, enteric-coated and dispersible formats — built around modern prescribing.

HOW TO USE THIS CATALOG

Browse by **dosage form** — each section has a clear header band.

Each row shows **composition, strength, form** and **pack size**.
